

Attendance

(Available since 10.2022, see also „[What's new](#)“)

The Moodle extension „Attendance“ (plugin mod_attendance) can be used to document student attendance. If configured correctly, students can record their attendance themselves and see an overview of it. Teachers can export attendance lists.

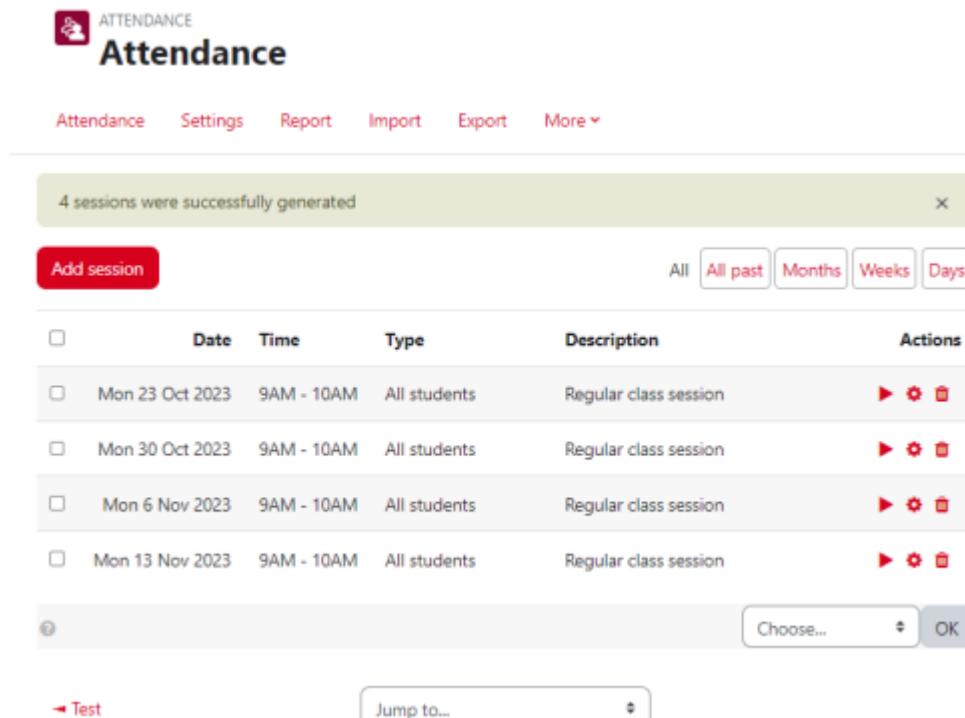

The extension will be used on a trial basis for now, the Moodle team appreciates your feedback!

Create "Attendance" activity

Add the activity „Attendance“ to your Moodle course (see „[Create activities](#)“). Enter a name for the activity.

Sessions

Here you can see all the sessions you have entered. Sessions for which you have already recorded the attendances are visually distinguishable from those that you have not yet recorded.

The screenshot shows the Moodle Attendance page. At the top, there is a navigation bar with links: Attendance, Settings, Report, Import, Export, and More. A message box at the top indicates that 4 sessions were successfully generated. Below this, there is a red 'Add session' button. To the right of the button are filter buttons for All, All past, Months, Weeks, and Days. The main content area displays a table of sessions:

	Date	Time	Type	Description	Actions
<input type="checkbox"/>	Mon 23 Oct 2023	9AM - 10AM	All students	Regular class session	
<input type="checkbox"/>	Mon 30 Oct 2023	9AM - 10AM	All students	Regular class session	
<input type="checkbox"/>	Mon 6 Nov 2023	9AM - 10AM	All students	Regular class session	
<input type="checkbox"/>	Mon 13 Nov 2023	9AM - 10AM	All students	Regular class session	

At the bottom of the page, there are buttons for 'Choose...', 'OK', and 'Test'. A 'Jump to...' dropdown menu is also present.

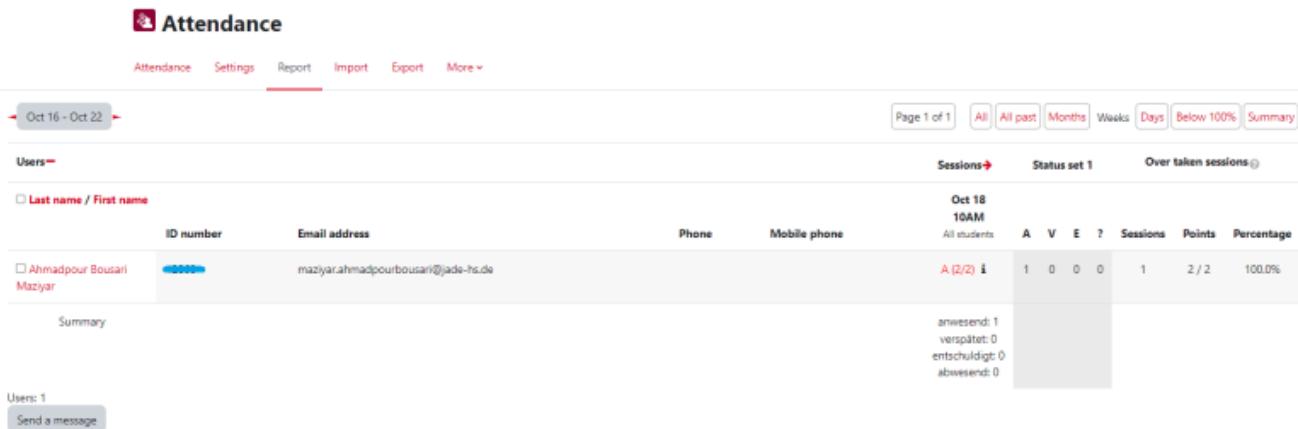

Add Sessions

Here you enter the sessions for which you want to record the attendances. As in Outlook or other agendas, you can enter one-time sessions as well as recurring ones. If needed, an entry can be

automatically generated in the Moodle course calendar for each session.

Report

Here you can see the attendance report for all participants of the Moodle course.

The screenshot shows the Moodle Attendance report interface. At the top, there are tabs: Attendance, Settings, Report (which is selected), Import, Export, and More. Below the tabs, a date range is set to 'Oct 16 - Oct 22'. On the right, there are buttons for Page 1 of 1, All, All past, Months, Weeks, Days, Below 100%, and Summary. The main content area is titled 'Users' and shows a table of student attendance. The table has columns for ID number, Email address, Phone, Mobile phone, Status set 1, Sessions, Points, and Percentage. One student, 'Ahmadpour Bousari Mazyar', is listed with ID number '12345' and email 'mazyar.ahmadpourbousari@jade-hs.de'. The status is 'A (2/2)' with a note '10AM'. The student has 1 session, 2 points, and 100.0% attendance. Below the table, there is a summary section with the text: 'anwesend: 1', 'verspätet: 0', 'entschuldigt: 0', and 'abwesend: 0'. At the bottom left, it says 'Users: 1' and 'Send a message'.

Export

Here the attendance for all, individual groups or individual participants can be exported as Excel / OpenOffice or text file. To do this, select the desired format and click OK. You can manually adjust the date for the start and end of period by clicking on the small red calendar icon next to the year.

You will receive an Excel list with all past sessions and the respective status of the participants (A = present, E = excused, ? = absent, etc.). Sessions that are still in the future can also be included in the file by checking the box „**Include not taken sessions**“.

Status set

In the „**More**“ tab you will find the „**Status set**“ . There you can overwrite how a session can be marked, e.g. as „present“, „delayed“, „excused“ or also „absent“.

Temporary users

You can also find the „**Temporary users**“ under the „**More**“ tab. Here you can add additional people to the attendance record who are not enrolled in the Moodle course but whose attendance you would still like to record.
