

Chat

In the activity "**Chat**" participants can discuss with each other in real time in Moodle, exchange opinions and different perspectives.

The exchange takes place simultaneously, i.e. synchronously, in contrast to the forums. The chat module contains a number of functions to manage and follow up the discussions.

- [Configure "Chat"](#)

Here you will find information on how to create a chat in the course and what settings you can configure for it:

- [Using "Chat"](#)

Information on how to use a **Chat** in Moodle and which usage scenarios are possible:

- [FAQ about the activity "Chat"](#)
- [More information about "Chat" at moodle.org](#)
