Feedback

The activity Feedback is used to conduct surveys (the activity „Survey“, on the other hand, provides predefined questionnaires).

Questions can be asked with single or multiple answers. Open questions are also possible. Answers can be given anonymously or by name. The „**Feedback**“ activity is suitable for feedback on the course or for obtaining registration data, e.g. for excursions.

- Set up feedback (at moodle.org)
- Set up feedback (AMC video tutorial in German)
