

Link/URL

You can use the “**Link/URL**” work material to provide cross-references to other websites or links to external files (files stored on another server) in the course.

Add a link to the course:

1. Turn on edit mode.
2. “**Add an activity or resource**”.
3. Select “**URL**”.
4. Enter name and URL and define further settings if required.

External links

If links lead to external pages, these are marked with a hint symbol. This also applies to images that are provided with a link.
