

Text and media area

The “**Text and media area**” activity allows you to insert text (e.g. headings), images, multimedia or code directly on the course page between other resources.

It is a versatile working material that can be used, for example, to provide brief information or to describe what the course participants should do next. It can also be used to better structure the content of a course section and make it clearer, e.g. to insert blank lines or separators between work materials or learning activities.

The screenshot shows a Moodle course page with a list of activities and a text area. The activities listed are:

- FOLDER: Testify
- FORUM: Test
- FAIR ALLOCATION: Test
- SCHEDULER: Test

Below the activities is a text area with the following text:

This is a text area:
Here you can insert text (e.g. headings), images, multimedia or code directly on the course page between other resources.

Below the text area is a toolbar with icons for text, image, video, audio, code, and help. At the bottom of the text area is a button that says "Add an activity or resource".

Further information on text and media fields can be found at moodle.org.

You can find instructions on how to insert images at moodle.org.
