

Reset course

You cannot undo the „**reset**“ once it has been done!

Requirement: You are registered in the course room with the role „**Teacher**“. If you (additionally) have the „**Student**“ role, please remove the „**Student**“ role for yourself first.

1. On the course overview page, click on the tab „**More**“ and in the selection that appears, select „**Course reuse**“.

Choose „**Reset**“ from the drop-down list to display the „**Reset course**“ overview.

2. Select (at the bottom of the page) the „**Select default**“ button.

3. Click on the „**Reset course**“ button. You will see a summary of your selection, e.g. how many users will be deregistered from the course.

Important: The next step cannot be undone!

4. Click on „**Reset course**“ to reset the course permanently.
