

Course Appearance

You have the possibility to make some basic settings for the presentation of your course:

▼ Darstellung

Design festlegen	<input type="button" value="Nicht festlegen"/>
Sprache erzwingen	<input type="button" value="Nicht festlegen"/>
Anzahl von Ankündigungen	<input type="button" value="2"/>
Bewertungen anzeigen	<input type="button" value="Ja"/>
Aktivitätsberichte	<input type="button" value="Nein"/>

Theme

The theme refers to the pre-installed „theme“ that will be used for the course. By default, the theme **Boost Campus** is set- we recommend not to change this setting, as it corresponds to the corporate design of Jade University.

▼ Darstellung

Design festlegen	<div><input checked="" type="button" value="Nicht festlegen"/> <input type="button" value="Boost"/> <input type="button" value="Boost Campus"/></div>
Sprache erzwingen	<input type="button" value="Nicht festlegen"/>
Anzahl von Ankündigungen	<input type="button" value="2"/>
Bewertungen anzeigen	<input type="button" value="Ja"/>
Aktivitätsberichte	<input type="button" value="Nein"/>

Force language

If you specify a language here, the Moodle interface in the course will appear in that language, even if users have selected a different preferred language in their user profile.

简体中文 (zh_cn)

Anzahl von Ankündigungen ?

Bewertungen anzeigen ?

Aktivitätsberichte ?

Nein ⇅

Number of announcements

This setting determines how many new messages from the Announcements forum are displayed in the **New Announcements** block on the course page.

If the forum is not used in the course, set the setting to Zero.

In this example, the number of announcements has been set to „2“:

Anzahl von Ankündigungen ?

2 ⇅

On the course overview page, the „New Activities“ block then looks like this:

Neue Ankündigungen + ⚙️ ▼

Neues Thema hinzufügen...

7. Feb., 08:34

Kirschner Melanie

Thema 2

Kirschner Melanie

Thema 1

Ältere Themen ...

Show ratings

Use this setting to determine whether students see an „Assessments“ link in the navigation block. If you do not use assessments in your course, it is a good idea to disable this setting.

If you are using assessments and the setting is disabled, students can still access their associated assessment through the individual activities.
