

Group mode

In order to work with Moodle groups, groups must first be created. Then students are assigned to the groups. You can [enroll_students_manually_into_groups](#), set up a [group_choice_for_students](#), or assign a [enrollment_key_per_group](#).

Set group mode

Prerequisite: Moodle workgroups have been created.

1. Set the group mode of the respective activity: Open the settings of the activity.
2. in the area „Further settings“ you can select the group mode.

For more information, see the wiki area [groups](#).
