2025/11/03 14:07 1/1 Group mode

## **Group mode**

In order to work with [] Moodle groups, groups must first be created. Then students are assigned to the groups. You can enroll\_students\_manually into groups, set up a group\_choice for students, or assign a enrollment\_key per group.

## Set group mode

**Prerequisite**: Moodle workgroups have been created.

- 1. Set the group mode of the respective activity: Open the settings of the activity.
- 2. in the area "Further settings" you can select the group mode.

For more information, see the wiki area groups.
