

# Courses

Courses (or course rooms) can be used as a centre of information for your students. Here, you can provide your materials and learning activities for your students or at least the links to it.

You can [request](#) courses and then provide them with various [files](#), [multimedia elements](#), tests, surveys and many other [activities](#).

[Participants](#) can be added to courses or removed manually/automatically. As a teacher you can select various options in the [course settings](#).
