2025/11/07 01:36 1/1 Completion tracking

Completion tracking

Set up activity completion

Define when an activity or material should be considered completed.

Activity completion can show learners their learning progress. As a teacher, you can make the completion of certain activities a prerequisite for viewing further materials or activities.

Activate completion tracking: Course Settings, section **Completion Tracking**. Now you can define how the completion of an activity or material is determined. See moodle.org for more information: Activity completion settings.
