

# What's new (10/2022)

Here we provide information about new features in Moodle that result from version updates or have been added. The information concerns teachers and course owners (role "Teacher").

## New since 10/2022

Moodle 3.11 incorporates the Brickfield Accessibility Starter Toolkit to help teachers create accessible course content. By choice teachers may use the tool to check their own courses and get hints how to improve accessibility.

- Manual "Accessibility Toolkit" - [https://docs.moodle.org/311/en/Accessibility\\_Toolkit](https://docs.moodle.org/311/en/Accessibility_Toolkit)
- More on [Accessibility](#)

## New since 08/2022

### Activities

#### Show due dates for activities

Due dates for activities can now be displayed on the course page, e.g. submission date of an assignment or last date for a vote.

- Enable in course settings (section *Display*) > Show activity dates).

#### Show activity completion conditions

If [Abschlussverfolgung](#) is used in the course, the conditions for completing an activity can now be displayed on the course page, e.g. making a selection for a vote.

\ Enable in the course settings (*completion tracking* section):

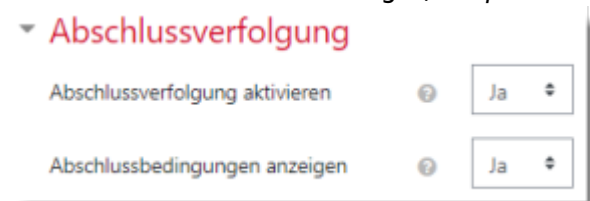

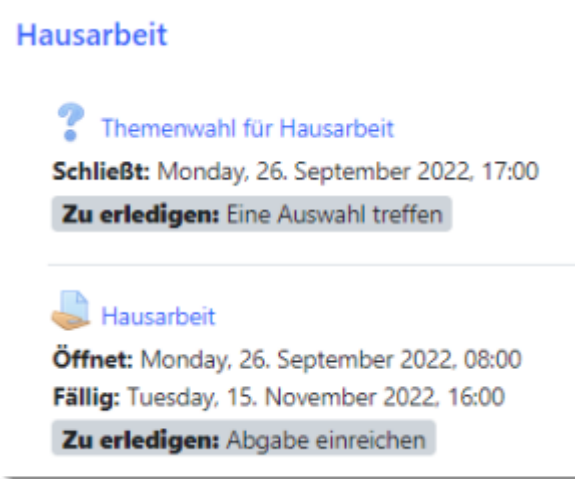

image: enable completion tracking

- "Enable completion tracking"
- "Show completion conditions" - shows the conditions for completion on the course main page.

The screenshot shows a Moodle course main page with two assignment cards. The top card is titled 'Hausarbeit' and features a question mark icon. It includes the text 'Themenwahl für Hausarbeit', a closing date 'Schließt: Monday, 26. September 2022, 17:00', and a completion condition 'Zu erledigen: Eine Auswahl treffen'. The bottom card is also titled 'Hausarbeit' and features a document icon. It includes an opening date 'Öffnet: Monday, 26. September 2022, 08:00', a due date 'Fällig: Tuesday, 15. November 2022, 16:00', and a completion condition 'Zu erledigen: Abgabe einreichen'.

## Improved Activity Completion Report

(Available in audit courses only): Instructors can filter the activity completion report by type and order of activities.

## H5P and the content repository

- Teachers (role "Teacher") can download and/or replace H5P files in the [Content Store](#).
- Teachers can see how often H5P items are linked (but not where) via the content store.

## Test/Quizzes and Questions

### Maintain preferred settings for test questions

Changes in default test question settings are retained when instructors create a new test question.

### Word limit for free text questions

Instructors can specify a minimum and maximum number of words for free text questions.

### Review test results

It is now possible to comment on answers and overwrite points. The "Answers Review" documents the corrections.

### Test completion via number of attempts

For tests, it is now possible to specify after how many attempts a test is considered completed.

## Enable course content download

Instructors can enable a button for students in the course to download course content collectively. Currently, this includes the working materials "Directory," "File," and "Text Box."

- Enable in course settings: "[Enable download course content](#)".
