Course Description

The **course description** contains short notes for students or possible participants. It is taken from the course order.

The entry can be edited later and designed with the text editor. The course description is included in the course search and appears next to the course name in the course overview.

Instruction

1. Click on the cogwheel in the upper right corner (the Settings menu will open) and select **„Settings „**: The **„Edit Course Settings „** overview will be displayed.

2. **Make** settings in the Description area.

3. Confirm changes with the **„Save and display „** button.
