Course Description

The **course description** offers short information on the course for students or interested persons whether to subcribe.

It is taken from the course request and can be edited with the text editor. The course description is considered in the course search and appears next to the course name in the course overview.

Instruction

1. Click on the cogwheel in the upper right corner (the Settings menu will open) and select **„Settings „**: The **„Edit Course Settings „** overview will be displayed.

2. **Make** settings in the Description area.

3. Confirm changes with the **„Save and display „** button.
