

# Group mode

In order to work with Moodle groups, groups must first be created. Then students are assigned to the groups. You can [enroll\\_students\\_manually\\_into\\_groups](#), set up a [group\\_choice\\_for\\_students](#), or assign a [enrollment\\_key\\_per\\_group](#).

## Set group mode

**Prerequisite:** Moodle workgroups have been created.

1. Set the group mode of the respective activity: Open the settings of the activity.
2. in the area „Further settings“ you can select the group mode.

For more information, see the wiki area [groups](#).
