2025/09/10 19:46 1/1 start

Group mode

In order to work with [] Moodle groups, groups must first be created. Then students are assigned to the groups. You can enroll_students_manually into groups, set up a group_choice for students, or assign a enrollment key per group.

Set group mode

Prerequisite: Moodle workgroups have been created.

- 1. Set the group mode of the respective activity: Open the settings of the activity.
- 2. in the area "Further settings" you can select the group mode.

For more information, see the wiki area groups.
