

Questionnaires

In the question bank, teachers can create test questions:

- create
- edit
- view
- organise into question categories and delete.

Questions in question categories can be made available system-wide, within a course or within a test. Teachers can access the question collection via the cogwheel icon at the top right > More ... (or in the Settings > Course Administration block) > Question collection or within a test.

More information on question collections on moodle.org.
