

Enrol participants

Set up (and limit) student self-enrolment

Participants can enrol on their own if you enable self-enrolment (you choose whether with or without a password, called „[enrolment key](#)“ in Moodle).

Activate the enrolment method „**Self enrolment**“.

1. Select „**Participants**“ in the navigation on the left. You will see the list of participants for this course room. (On the right side you should see two gears: The top one is for settings in the course room).
2. Click the **lower cog** to go to **Student Settings** and select the entry „**Enrolment Methods**“. You should now see two enrolment methods. The manual enrolment concerns yourself: You are already enrolled as a „trainer“ (write-in right).

The closed eye of an enrolment method temporarily excludes the associated participants from the course.

Self-enrolment (basic)

In the line „Self-enrolment (student)“ the eye symbol is crossed out.

Click on the eye symbol to activate self-enrolment.

Name	Nutzer/innen	Aufwärts/Abwärts	Bearbeiten
Manuelle Einschreibung	2	↓	   
Selbsteinschreibung (Student)	0	↑	   

Self-enrolment with enrolment key (extended)

The procedure for [self-enrolment with enrolment key](#) is described in the section [enrolment_key](#).

Enrol participants manually (manual enrolment)

In addition to self-enrolment, course owners can also manually enrol students in course rooms.
Examples:

- Enrol students (role „Student“)
- give writing rights to colleagues (role „Teacher“)
- enrol a student assistant who is supposed to provide material but is not allowed to evaluate it (role „student assistant“).

Enrol participants 1.

Select „**Participants**“ in the navigation on the left. You will see the list of participants for this course room.

Click on the button „**Enrol Students**“. A dialogue box will open (see figure „Enrol users“).

Use the **search field** to search for first or last name or e-mail address and select an entry.

If necessary, change the role from „Student“ (default) to, for example, „Teacher“ (write permission) or „Student Assistant“ (edit but do not evaluate). 4. **Confirm** with „Selected users ... enrol“ to exit the window. The new participants will then be displayed in the list.

Enrol students via list

You can get a list of the students to be enrolled, e.g. for an e-examination, from the [eCampus](#).

1. click on „**Participants**“ in the navigation on the left in the course room.
2. click on the **second gear** and then on „**Enrolment by list**“.
3. insert the **email addresses of the students**, e.g. via the clipboard.
4. click on the button „**Enrol students**“.

You should now receive an overview of the students to be enrolled. 5. **Confirm** again with the button „**Enrol students**“.

With „enrolment by list“ students can be [in a group](#) right away.
