Make courses accessible

Newly ordered or created courses are immediately visible in Moodle, but they cannot yet be accessed by students (course participants). This allows courses to be prepared in peace.

- Activate Self-enrolment so that students can enrol themselves. If necessary, assign a password, called „**Enrollment key**“ in Moodle.
- You can also enrol students (or colleagues) manually in course rooms: Manual enrolment.

Also:

- Participants' list
- Groups
- Roles in Moodle
