

Roles in moodle

In moodle at Jade HS,  users are assigned different roles - depending on their function and context.

- ***Teacher: Teachers are given writing rights in their course rooms. They can create, change and delete materials and activities. They can enrol other participants in the course room or sign them out. They evaluate activities. Staff members can also receive write access or the role „Teacher“.** Student: **Students can access their course rooms with the role „Student“.** They can view and download materials. They use the activities offered, submit work results and view their assessments received. Student Aide: **Students with this role perform auxiliary activities in the course room. They can create, change and delete materials and activities. They cannot evaluate.** * Tutor: **This role can only assess, but cannot insert or change materials or activities.** * Manager*: At the level of course areas, e.g. for departments or degree programmes, there is the role „Manager“. These persons carry out administrative work in their area: Creating, moving or deleting courses. They can also take over the registration and de-registration of „Teachers“ and „Students“, among others.
