Service Teaching and Learning Systems (LMS)

Are you looking for information on Moodle and other services available for digital teaching? You'll find what you're looking for here in the LMS Wiki!

Guide: How can the LMS Wiki help me?

- **You are working with Moodle** for the first time? Then the Quickstart will give you a first overview of the most important functions.
- Questions about **logging in to Moodle**? See the section „Access“.
- How do I find **courses in Moodle**? See the „Navigation“ section.

- Information on **organizational topics** is stored in the „courses“ section: Request course, User settings, Course settings, a new semester term, Course deletion.
- Instructions on **designing a course** can be found in the „activities“ section.
- How do **students get into the course**? See „Course participation“.
- Also: dividing into work groups and overview of roles in the course.
- If you want to create a digital **quiz** or a **test**, the section „test/quiz“ will help you.

The wiki also provides information on the topics:

- **Webconferences** - systems used, access, usage.
- **Video** - Storing/Video hosting and provisioning, video recording with OBS
- **Tools** - Feedback tools for teaching (ARS), online surveys for research and student work (Unipark), plagiarism detection (PlagAware)

Current notices

Current information about the services (maintenance times, technical problems, new functions) in the

- Infosys of the Jade University of Applied Sciences
- Moodle announcement forum
- What's new

Support Moodle Team

- We look forward to your message to the Moodle Team
