Actionbound

> Actionbound can be used by all members of the Jade University of Applied Sciences during the test phase (ends on 01.04.2025).

Actionbound is a software for creating and playing self-designed themed rallies, scavenger hunts or quiz games. Bounds are created online using the Bound Creator at actionbound.com. Registration is required to create Bounds. The game is played via the free Actionbound app, which is available for iOS and Android in the respective app stores.
