Camtasia and Snagit

Application scenario: Creation/editing of videos and screencasts
Runtime: 07.02.2025
License: Lecturers of the Jade University
Contact: Sabine Helmke (digitale-lehre [at] jade-hs.de)

Camtasia is a software for creating screencasts/screen recordings and video editing, while the slimmer Snagit is suitable for quickly creating and editing screencasts/screenshots.

License terms

The license key may only be used by lecturers and teaching staff of the Jade University of Applied Sciences as well as student assistants with contracts of 50% working time or more.

The license is initially granted for 12 months and can be extended by the Jade University. After that, the license expires (as of January 2024).

Software download and license key

The license key can be retrieved on the website after logging in with university access data:

- Camtasia and Snagit license

Tutorial videos and webinars

There are various tutorials and help for Camtasia and Snagit on the manufacturer's website:

- Tutorials
- Webinars
- Recordings of older webinars
