

# Camtasia and Snagit

**Field of use:** Creation/editing of videos and screencasts

**Runtime:** 07.02.2025

**License:** Teaching stuff of Jade University

**Contact:** [Sabine Helmke](#) (digitale-lehre [at] jade-hs.de)

Camtasia is a software for creating screencasts/screen recordings and video editing, while the slimmer Snagit is suitable for quickly creating and editing screencasts/screenshots.

## License terms

The license key may only be used by the teaching staff of Jade University of Applied Sciences as well as student assistants with contracts of 50% working time or more.

The license is initially granted for 12 months and can be extended by the Jade University. After that, the license expires (as of May 2024).

## Usage in PC network system

Users with a rightfull licence may use Camtasia and Snagit from the [PC network system](#)

- Open the „Start“ menu and
