

# Schedule planner (DFN)

Scheduling appointments made easy - and data protection compliant

**Application scenario:** Web-based coordination (e.g. appointments)

**Runtime:** Unlimited

**License:** All members of the Jade University

**Contact:** For technical questions: <https://terminplaner6.dfn.de/en/contact> (Login)

The DFN appointment scheduler enables web-based coordination, e.g. for appointments. DFN-Verein provides the scheduler exclusively for polls initiated by users from institutions participating in DFN. Under data protection law, the scheduler is designed for simple polls, but not for large-scale polls and expressly not for the entry of sensitive personal data, more on this at DFN:
