

Schedule planner (DFN)

Scheduling appointments made easy - and data protection compliant

Application scenario: Web-based coordination (e.g. appointments)

Runtime: Unlimited

License: All members of the Jade University

Contact: For technical questions: <https://terminplaner6.dfn.de/en/contact> (Login)

The DFN appointment scheduler enables web-based coordination, e.g. for appointments. DFN-Verein provides the scheduler exclusively for polls initiated by users from institutions participating in DFN. Under data protection law, the scheduler is designed for simple polls, but not for large-scale polls and expressly not for the entry of sensitive personal data, more on this at DFN:
