

# Zoom FAQ

## Testing audio and video

- [How to test or connect my computer/device audio](#)
- [How do I test my video?](#)

## Share screen or application

- [How do I share my screen?](#)
- [Screen sharing for participating students?](#)

## Prevent participants from chatting with each other

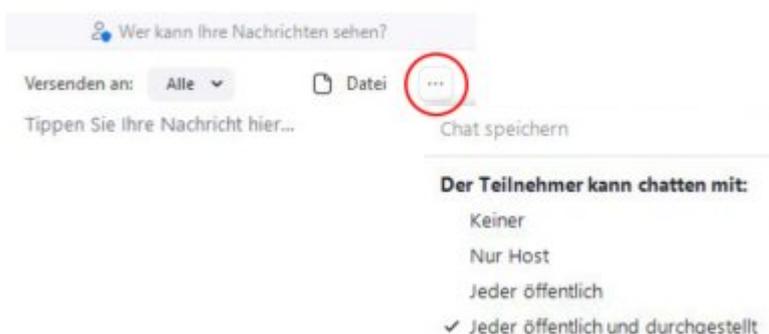

At the beginning of the zoom conference, you can set in the „Chat“ section whether students are only allowed to communicate with the teacher or also with each other.

To do this, select the desired option in the chat settings.

1. Dial into the conference
2. Select the **Chat** section
3. Click on ... at the bottom right and make the setting:

Participant can chat with:

- None
- Host only
- everyone public
- Everyone public and connected

## Technical problems

- [Video/camera not working](#)
- [Echo noise in a meeting](#)

## What is zoombombing?

Video conferences without access protection (e.g. password) can - if the URL is made publicly available - be entered and disturbed by uninvited guests.

To protect meetings, Zoom meetings at Jade University are configured to require a password by default. See also „[Privacy](#)“.

## Video tutorials and training courses

Zoom offers free online training in German as well as [video tutorials](#).
