

# Zoom

With the Zoom software, teachers, students and employees of the Jade University of Applied Sciences can conduct video conferences.

Video conferences with up to 300 people can be held without time limits. If you want to hold a conference with more than 300 people, it is recommended to use [Webex](#).

Install “**Zoom Client**” to start and join meetings.

Your local Zoom application (client version) should be as up-to-date as possible to ensure that everything works properly and securely: Check and update the [client version](#).

The Zoom video conferencing service was updated in April 2023.

- New [dial-in numbers](#) from 17.04.2023.  
e.g. Germany +49 69 389 805 96
- The previous telephone dial-in numbers are no longer valid since April 12, 2023.
- If you offer telephone dial-in for participants, you have had to recreate the relevant meetings since April 17, 2023. The meeting URL would then also change.
- There are no other changes for existing meetings.
- The domain **zoom-x.de** is an alias or a communicative domain that is forwarded to a target URL at the end. In this case to **eu02web.zoom.us**. Forwarding to this URL does not mean that your meeting data is stored in the USA. The meeting data is hosted by Zoom X in Germany.

Teachers (or the “**Teacher**” role) can create [Zoom meetings in Moodle](#). For weekly recurring meetings, we recommend a [Recurring meeting in Moodle](#).

- Zoom Portal of the Jade HS [www.jade-hs.zoom-x.de](http://www.jade-hs.zoom-x.de)
- Testing of Zoom, Audio/Headset, Video <https://jade-hs.zoom-x.de/test>
- Download [Zoom-Client and Plugin MS Outlook](#)
- [Install Zoom and log in with university access data](#)
- [Setting up and holding meetings](#)
- [Check and update client version](#)
- [Set up and use polls](#)
- [Creating breakout rooms in Moodle](#)
- [Team chat with Zoom](#)
- [How we protect your data in the best possible way](#)
- [What you can do to hold a meeting safely](#)
- [Frequently asked questions \(FAQ\)](#)

Please note that participating in a Zoom meeting via a mobile connection may incur costs (depending on the network operator and country code).

For further information, questions about use and technical problems, please contact the [Moodle support](#).
